"Beauties for Your Garden"

Peonies and Irises are without doubt the most satisfactory garden flowers from every standpoint. They are most profuse and gorgeous in wealth of bloom, unquestionably hardy, easy to grow and succeed in almost any garden soil. They are justly popular with experienced gardeners as well as amateurs the world over.

Our list of new modern varieties in both Peonies and Irises is very complete, over 1600 varieties. You will find both the new higher priced novelties for those who want the latest sorts and also the many hundreds of exquisite kinds that are just a few years older that are priced so low as to be available to the most modest purse.

If you are an experienced gardener or only a novice in the growing of these two magnificent species of flowers you will find offered here the very cream of varieties to make your garden more enjoyable.

PLANTING INSTRUCTIONS

PEONIES

Plant in good average garden soil. Spade up the ground several times as deep and large as the plant to be planted.

Place the eyes 2 to 2½ inches under the level of the ground. Place a handful of bone meal around each plant, mixing it into the soil.

Do not plant near trees or shrubbery. They like plenty of sunshine. Disbud the lateral buds for show flowers.

Cultivate frequently. Cover with straw or other litter the first year to protect from heaving.

IRIS

Plant in good average garden soil to which add some bone meal and crushed limestone.

Plant the roots 2 to 3 inches under the ground and cover the body of the plant with not over an inch of soil.

Plant 12 to 15 inches apart. Reset every 3 or 4 years.

They like sunshine, but will flower in partial shade.

All Irises, one-year stock, the best to be had.

Printed Planting Instructions Accompany Every Order

Our Guarantee

All varieties true-to-name. Replacement if not.

Young stock full of strength and vigor. Will grow if planted and cultivated properly.

We advise you to make second choices.

All Peonies are 3-to-5-eye standard divisions. Large 6-to-10-eye plants can be had at double the standard division prices.

All Irises are strong healthy one-year-old rhizomes.

All Poppies are fine healthy plants. We suggest that you follow closely the directions for planting which accompany every order.

All Hemerocallis plants are fine divisions. These plants are very fine for the garden and are very easy to grow.

Proper Depth is Important in Planting Peonies

See Pages 30 and 31 for Peony Collections

Japanese PEONIES

This type of Peony is very graceful in growth and quite different in type of flower. The flowers are single or semi-double with wide flaring petals of exquisite coloring and texture. The centers are usually a more or less compact mass of tiny petals or petaloids surrounding the stamens and usually of a color contrasting with the main petal color. Very charming color effects are found among them.

Each

Akalu. (Des.) Large carmine-red mid-season	\$ 1.00
Akashigata. (Des.) Bright rose guard petals surrounding a heavy center of filamental petals of bright pink bordered with gold	1.50

Peony Bargains on Pages 30 and 31.

Le Jour

Single PEONIES

Somewhat like the Japanese Peony but having no central petaloids, the stamens being exposed to form the contrast with the guard or main petals. As a class they are very graceful plants, holding their blooms well off the ground without support and offering very handsome subjects for bouquets as well as the garden.

	Each

Tenuifolia Latifolia. Crimson. Single	1.00

Tenuifolia Flora Plena

Tree Peonies

(*Paeonia Arborea*)

A very different type of plant from the herbaceous Peonies which die to the ground each year. Tree Peonies form a permanent woody shrub, growing larger each year and ultimately making a good big shrub which will be covered each year with glorious large blooms of rich and unusual coloring. There are many colors in this type which are not found in any of the other types.

No garden should be without one or two Tree Peonies. They make fine specimen plants as well as mass effect.

The following prices are for strong 4- and 5-year-old shrubs that have already bloomed. The size varies according to the variety, ranging in height from 12 to 24 inches, with several stems. We always send out the finest plants available in each particular variety.

Cultural directions accompany every shipment.

	Each
Banksi. (Europe.) Large; double; flesh-pink. Good bloomer and very hardy. We have a very large stock of this variety and are in a position to select extra fine shrubs	\$ 4.00
Baronne d'Ales. (Europe.) Large; full; vivid salmony pink, dark center	5.00

IRISES

Ethel
Peckham

Iris in some form are native to practically all parts of the world. They vary greatly in size, height and coloring in the various countries. As a class they are of extremely easy culture and not particular as to soil. No flowering plant gives so much in beauty for so little cost and attention.

The following list of Tall Bearded Iris offers the newer kinds which, because scarce as yet, are relatively more expensive than the older varieties. Because our list is so extensive we can give only brief descriptions.

Get some of these newer kinds for your garden. You will revel in their beauty and your friends will enjoy kinds they have never seen.

Tall Bearded Varieties

	Each
Alice Harding. (Cay.) A large soft satin yellow with deep orange beard. Flowers of perfect form and substance. Profuse bloomer and vigorous grower	\$ 0.25

Golden Cataract

Heemerocallis ~ DAY LILIES

The old-fashioned Day Lily has undergone a transformation in the hands of hybridists in the past few years. Now we have great variety in color, time of bloom, May to September, and new shapes from which to choose. All are hardy and do well in sun or partial shade. If you do not have these newer Day Lilies you are missing a rare beauty in your garden. Beautiful for cut flowers as well as garden.

	Each
Amaryllis. (Bet.) Large golden orange, slightly deeper in throat. July and August. 36 inches. \$	0.50

Oriental Poppies

Huge flaming scarlet, crimson and rich maroon flowers, some with black blotches, also some new colors: pink, salmon and old rose, have revived interest in the old Oriental Poppy. These newer kinds are really marvelous; you must have some of these newer Oriental beauties which bloom between the Iris and Peony seasons. Shipments after August 1st.

	Each
